KLEIN MARINE TO OFFER REPAIR SERVICES IN SINGAPORE

SALEM, NH – September 10, 2018 – Klein Marine Systems, Inc. (“Klein”), a wholly owned subsidiary of Mitcham Industries, Inc. (“Mitcham” or “the Company”) (NASDAQ: MIND) is pleased to announce direct service and repair for their Side Scan and Multi-Beam sonar systems in Singapore. Recognizing the growing importance of the market in the Asia Pacific region and in China in particular, beginning in November 2018, Klein will offer faster repair services by utilizing the world class service facility of their sister division SEAMAP in Singapore.

Guy Malden, Co-CEO of Mitcham Industries commented “We are confident this effort will provide even more timely services in the region and demonstrates once again the commitment of Mitcham Industries and its affiliated entities to customer satisfaction”.

Klein Marine Systems strives to provide the highest quality products and services to a wide range of Military and Commercial customers, servicing customers in 80 countries and building upon international relationships to best meet the service needs of their customers. The new approach to after sales services from Singapore is in line with Mitcham’s vision of first class support and is the result of on-going strategic integration efforts within Mitcham Industries’ subsidiaries.
